Work Experience

Product Engineer

Sep 2025 - Jan 2026

Inato

Healthtech clinical trials and patient data. As a Product engineer, in charge of specifying and delivering evolutions to the product. Taking directly raw product needs and autonomously managing the development lifecycle.

- Product Engineering
- Patient Data
- Typescript
- React
- Effect ts

Fullstack Developer

Oct 2021 - Aug 2025

Agorapulse

Social media web and mobile app, first working on self-service subscriptions where we migrated the payment's provider and updated the funnel and pricing model. Then working on the mobile app, and cross feature stack maintenance.

- Payments
- Scale-up challenges
- Angular NgRx MFE
- Micronaut (Java)
- AWS ECS

Freelance DevOps

Aug 2020 - Nov 2020

Easley finance (startup)

Migrated from a single docker container managed manually on legacy hosting to aws cloudformation's infra as code on multiple replicated environments with continuous deployment.

- AWS Cloudformation
- Fargate Containers
- Automation CD

Fullstack Developer

Jan 2018 - Sep 2021

Wezen

Translation management systems, from a team of 4 to a full team of 20, in charge of first migration. Leading the frontend evolutions on the core interfaces and workflows. Setup a continuous integration from scratch to reduce delivery cycles.

- Lead feature teams
- Mentoring
- Product ownership
- Angular
- Spring

Temp technician

Aug 2017 - Dec 2017
