

Hugo SANSON

Fullstack Developer & DevOps

Website <https://hson.fr>

Email hugo.sanson@gmail.com

About

With a proven track record of building and maintaining large web applications, taking projects from idea to launch with practical and scalable solutions. I am always eager to learn more, contributing on GitHub and Stack Overflow casually. Most importantly i enjoy teaming up with others to innovate and deliver impactful solutions.

Work Experience

Fullstack Developer

Oct 2021 - Present

Agorapulse

Social media web and mobile app, first working on self-service subscriptions where we migrated the payment's provider and updated the funnel and pricing model. Then working on the mobile app, and cross feature stack maintenance.

- Payments
- Scale-up challenges
- Angular NgRx MFE
- Micronaut (Java)
- AWS ECS

Freelance DevOps

Aug 2020 - Nov 2020

Easley finance (startup)

Migrated from a single docker container managed manually on legacy hosting to aws cloudformation's infra as code on multiple replicated environments with continuous deployment.

- AWS Cloudformation
- Fargate Containers
- Automation CD

Fullstack Developer

Jan 2018 - Sep 2021

Wezen

Translation management systems, from a team of 4 to a full team of 20, in charge of first migration. Leading the frontend evolutions on the core interfaces and workflows. Setup a continuous integration from scratch to reduce delivery cycles.

- Lead feature teams
- Mentoring
- Product ownership
- Angular
- Spring

Temp technician

Aug 2017 - Dec 2017
